

ULTRON®

The ultimate polyurethane insole material

● FORM

Single or multi-density polyurethane construction provides extra support and comfort.

The Ultimate Polyurethane insole material

● PRODUCTION

Specialize in aftermarket insoles, handling development from the early stages all the way to the finished product on the shelf.

● PERFORMANCE

Attenuates shock + provides excellent energy return for maximum performance.

Our Ultron-Eco has the same great performance but offers bio-based content to reduce our “footprint”
